

About Energetix

Energetix began with a vision to create a vibrant company providing the most effective, high-quality natural remedies, clinical education and support network available to healing arts professionals and their patients/clients. Since we are dedicated to providing outstanding resources and solutions, Energetix partners only with practitioners who are interested in advancing the scope of their practice by offering a new level of health care.

Energetix recognizes that the creation of quality products requires **innovative formulations, pure raw materials and clean processing methods.** For this reason, we have chosen the **Spagyric method** of processing wherever possible, utilizing only the purest ingredients to create unique formulations that work synergistically to address causative factors in the ever-changing health environment.

The *Opening Channels Program*

Setting the Stage for Success

What is the *Opening Channels Program*?

The *Opening Channels Program* is a unique combination of homeopathic, botanical and nutritional supplements designed to “set the stage” for healing by opening the pathways of elimination in the body, including the colon, liver, spleen, kidneys, etc. The

synergistic ingredients in the *Opening Channels* products have been used traditionally to aid and assist with **digestion, elimination, hydration, pH balancing** and **liver/gut repair**. The products are all natural, safe and designed to work with your body as the first step in an overall healing strategy.

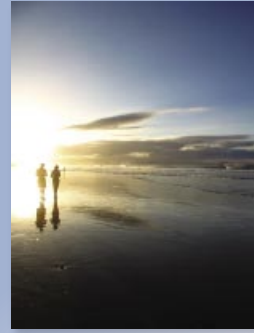

How do the products work?

The *Opening Channels Program* works with the body’s natural flow system to assist in restoring a healthy balance. In today’s fast-paced world, almost everyone accumulates unwanted toxins in their bodies. The combination of botanicals, nutritional and homeopathics in the *Opening Channels* products assists the body to **eliminate toxins gently** via the **pathways of drainage and elimination** while **restoring energy levels** and **resetting the natural flow system**.

How will I benefit?

Utilizing the *Opening Channels Program* as the first step in a healing process that includes proper diet and exercise can offer numerous benefits, such as: **promoting digestion and elimination, increasing nutrient uptake, balancing pH, replenishing lost minerals, increasing energy, cleansing the liver and colon, and restoring hydration to the cells.**

The *Opening Channels Program* is convenient to take. There is no need to stop eating or go on an extended retreat in order to complete the program. This program is easy to use and can fit into anyone’s schedule. It even comes in a portable pack with a pillbox and information booklet, so you can take it with you wherever you go!
